

**Optimizing the continuum of care.  
Anywhere. Anytime.**

***Versatile and comprehensive telehealth solutions.***

A network of unparalleled technical and medical professionals merged with leading-edge, FDA-approved technology provide the most versatile and comprehensive telehealth solution available today.

***Working together to improve patient outcomes.***

Access to knowledgeable and skilled professionals who implement and improve your telehealth solution via a collaborative approach. It's not just about medical processes and devices, it's also about improving your patient outcomes and optimizing their continuum of care.

***Our equipment is like no other.***

A fully customizable and scalable end-to-end telehealth solution which includes FDA 510k class II cleared telehealth medical devices, cloud services, a Virtual Exam Room (VER), clinician and administrator/analytic portals, and a VER product line which supports patients across the continuum of care from hospital, to rehab, to home recovery.

*"It's a standard? There is another option."*

Telehealth decreases the cost of care, travel time, facility charges, emergency visits, and readmissions while keeping patients in their communities. Overall, telehealth improves patient outcomes and access to affordable quality healthcare.
